4.	There were several shipyards on both sides of the river between Sawmill No. 26 and Solombala (N 64-36, E 40-33). one of the shipyards located directly north of Sawmill No. 23 on the west side of the river. This shipyard was engaged in the construction of lighters capable of handling 100 standard. These lighters were launched sideways.	<sup>%</sup> 50X1-HUM 50X1-HUM
	observed two floating drydocks at the shipyard; there were some small merchant vessels of approximately 1,200 to 1,400 tons each in the drydocks.	
	observed only one large iron lighter, which left the port loaded with cut lumber. The cargo appeared to be of poor quality.	50X1-HUM
5.	Except for two patrol vessels in the vicinity of Cape Orlov (N 67-13, E 41-18), did not observe any naval vessels at sea.	50X1-HUM
